This Front Matter is brought to you for free and open access by the Iowa Academy of Science at UNI ScholarWorks. It has been accepted for inclusion in Proceedings of the Iowa Academy of Science by an authorized editor of UNI ScholarWorks. For more information, please contact scholarworks@uni.edu.

TITLES OF PAPERS PRESENTED

Memorial of Philip Spong.....	41
Memorial of Walter Scott Hendrixson.....	43
Memorial of Clyde Leslie Winter.....	45

The Address of the President—The Ministry of Science.....	49
---	----

Presented in General Session

The effect of pressure on chemical reaction. F. E. Brown.....	145
The concept of talent for organized college living. C. E. Seashore...	
Further species crosses in the genus Cucurbita. E. F. Castetter.....	120

Bacteriology

Comparison of aerated and non-aerated cultures for nitrogen fixation studies by soils. L. W. Erdman and P. W. LeCornu.....	59
The present tendencies in bacteriological examination of water. Jack J. Hinman, Jr.....	65
What names should be used for organisms producing nodules on the roots of leguminous plants. R. E. Buchanan.....	81
Preliminary note on the sterilization of seeds of the Leguminosae with hydrogen peroxide. R. H. Walker and L. W. Erdman.....	91
Agglutination and colloidal reactions. F. W. Mulsow.....	
Microbiological death rates. C. H. Werkman.....	
Cedar River at Cedar Rapids, Iowa. C. O. Bates and H. R. Hendricks	
Specific infectious pyelonephritis of cows. C. D. Rice.....	
The use of sodium taurocholate and crystal violet in the isolation of Bact. tumefaciens. Sm. and Town. M. K. Patel.....	
A substitute for beerwort as a yeast medium in the bacteriological laboratory. J. C. Weldin.....	
The digestion of pectin and methylated glucoses by various organisms. Harold W. Coles.....	
Notes on a spirillum utilizing lactic acid. J. H. Watkins.....	
Purification of skim milk solutions on a lath filter. Max Levine, George Burke and C. S. Linton.....	

Botany

Studies on germination of trees and woody plants (continued). L. H. Pammel and C. M. King.....	97
Paired ovules of vallisneria. R. B. Wylie.....	121
Some physico-chemical effects of organic soil colloids. W. F. Loehwing.....	

Iowa plant notes II. R. I. Cratty.....	125
The taxonomic value of style color in the genus <i>antennaria</i> . Helen Nicholson	129
An ecological comparison of two types of woodland. O. R. Clark.....	
The prolificness of some common plants. H. E. Jaques.....	135
Systematic Botany. B. Shimek.....	137
Weeds of California and their relation to weeds in other sections of the country. L. H. Pammel.....	
The use of "Uspulun" for seed disinfection. C. W. Lantz.....	
Notes on Iowa fungi—1925. G. W. Martin.....	
The possibility of using prestone (ethylene glycol) in measuring evap- oration by atometers when temperatures are below freezing. Lynne M. Correll and A. L. Bakke.....	
Comparative hardness of shrubs as determined by water movement and moisture content when the roots are held in frozen soil and the tops exposed to medium temperatures. Mateal Cox. Introduced by A. L. Bakke.....	
The freezing points of the expressed cell sap of the first and second year shoots of the biennial white sweet clover as related to resistance to cold. J. N. Martin.....	
Seedling buds of the Kentucky coffee tree. H. I. Featherly and J. N. Martin.....	
Linkage in the first chromosome of the tomato. E. W. Lindstrom....	
The Charophyta of the Lake Okoboji region. Lucille Sawyer. Intro- duced by R. B. Wylie.....	
The plants of Emmet county, Iowa. B. O. Wolden.....	
Notes on the algae of eastern Iowa. G. W. Prescott. Introduced by R. B. Wylie.....	
Distribution of upland Iowa trees in relation to soil and moisture con- ditions. Robert E. Fennell.....	
The Iowa flora and the botanical manuals. B. Shimek.....	
The steppe-remnants of central Europe. B. Shimek.....	
Some common seed corn molds. J. C. Gilman and W. P. Raleigh.....	
Two unusual water molds belonging to the family Lagenidiaceae. G. W. Martin.....	
Spore markings in the genus <i>Russula</i> . Grace Winters.....	
Occurrence of mycorrhizas in Iowa forest plants. M. L. Lohman.....	
A <i>Pityoxylon</i> from Yellowstone Park. H. S. Conrad.....	
The status of science in the high schools of Iowa. Winfield Scott....	

Chemistry, Inorganic and Physical

The transference numbers and the degree of solvation of ions of lithium chloride in certain alcohols. J. N. Pearce and W. G. Eversole	151
Water softening in the home. Edward Bartow.....	165
Some investigations on the ethanol carbon tetrachloride system. S. Fred Calhoun and Thomas Poulter.....	169
Removal of a common source of trouble in hydrogen ion measurements. Stephen Popoff and A. Kunz.....	169

The commercial preparation of oxygen from lime and chlorine. O. R. Sweeney and A. W. Ralston.....	
The rate of evaporation through surface films. Raymond Bartlette and Thos. C. Poulter.....	
A valence-name-formula-solubility chart. G. N. Quam.....	170
The effect of the addition of sodium carbonate and sodium silicate on the casting of clay slip. F. E. Brown and Chifang Lai.....	170
A method of correcting deviations in atmospheric pressure very accurately. Dorothy Harrison and Thos. Poulter.....	
The graphitizing behavior of iron carbide in pure iron carbon alloys for the temperature interval 700°C. to 1100°C. Harry Parker Evans and Anson Hayes.....	171
A continuous reading electro-titration apparatus. Stephen Popoff and J. Hildebrand	172
The dissociation of some organic compounds at high temperatures. Gladys M. Woods and Thos. C. Poulter.....	172

Chemistry, Organic and Biological

Catalysts and activated magnesium in the preparation of Grignard reagents. Henry Gilman and J. Merriam Peterson.....	173
Utilization of cob char as a carburizing agent. H. L. Maxwell.....	174
The phosgeno-aluminates of lithium, magnesium, potassium, and lead. Molecular associations in phosgene solutions. D. M. Birosel.....	174
New derivatives of vanillin. G. Carroll Hilman and O. H. Alderks..	175
Action of potassium carbonate on certain phenyl alkyl ethers. L. Chas. Raiford and D. M. Birosel.....	175
Steric hindrance in the behavior of phenyl alkyl ether and derivatives. L. Chas. Raiford and D. M. Birosel.....	
Diphenylketene with nitrogen trichloride. G. H. Coleman and A. W. Campbell.....	
The influence of the ingestion of methylated purines on the excretion of uric acid. Emma L. Wardell.....	
The colorimetric determination of the hydrogen ion concentration of urine. Edward Muntwyler and Victor C. Myers.....	
Biochemical studies of hydantoins. O. H. Gaebler.....	
The action of the alkyl chlorides in the Wurtz reaction. H. F. Lewis	
The eradication of the Canadian thistle through the action of concentrated sulfuric acid. H. F. Lewis.....	176

Geology

Butler's landing outlier and its fossil flora. John E. Adams.....	177
Outcrop of Cretaceous sandstone in Cherokee county. E. J. Cable.....	
The bone deposit at Cherokee. E. J. Cable.....	179
Davenport's deep well. J. M. Lindly.....	
Some Iowa sandstone. Nicholas Knight.....	
Anticlines of the state of Iowa. Glenn S. Dille.....	183
An observed origin of some mud pebbles. A. L. Lugin.....	
Some observations on undertow. A. L. Lugin.....	199

Discussion of a sample of cobble gravel from the Mississippi river.	
A. L. Lugn.....	
Some recent finds of remains of the extinct ground sloth in southwest Iowa. Fred Delevan	203
A reconsideration of the age of certain outliers in Linn and Jackson counties. W. H. Norton	207
A horntail trilobite from McGregor, Iowa. A. O. Thomas.....	213
The use of cone-in-cone structure for the purposes of correlation. A. C. Tester	218
Water-table of the loess. Charles Keyes.....	219
Terranal affinities of Iowa chalks. Charles Keyes.....	219
Taxonomy of Iowa's glacial deposits. Charles Keyes.....	220
Notes on the progress of the physiographic evolution of Lake Cooper. Ben H. Wilson.....	221
The occurrence of the brachiopod bilibites bilobus in the Silurian of Iowa. A. O. Thomas.....	221
Proboscidian remains from Red Oak and Ottumwa, Iowa. A. O. Thomas	222
Dinosaur egg remains from Mongolia. A. O. Thomas.....	223
Notes on some Paleozoic echinoderms. A. O. Thomas.....	
The fish fauna of the Benton shales in the Laramie basin, Wyoming. Raymond Sidwell.....	
A study of the internal structure of Fusulina. Walter V. Searight..	
Primary andalusite and scapolit in granite. J. J. Runner.....	
Quartz cyanite veins from the Medicine Bow mountains. J. J. Runner	
Spherulites in fossil wood. J. J. Runner.....	
A tree stump from the Gilboa Forest. Dorothy Moler. Introduced by A. O. Thomas.....	
New evidence on the origin of brown hornblende. Wm. A. P. Graham	
Some recent Pleistocene studies in Iowa. G. F. Kay.....	
A new cystid from the Ordovician of Iowa. A. O. Thomas and H. S. Ladd.....	

Mathematics

The Solar surface during the past five years—A review of sun spot observations made at Alta, Iowa, from 1921-1925.....	225
Relativistic Reflections	231
Expansions of a function in the neighborhood of a branch point. Cornelius Gouwens.....	
A preliminary report on freshman mathematics for social science students. C. W. Emmons.....	
A general interpolation formula. J. F. Reilly.....	
On a certain group of two-squares. W. J. Rusk.....	
On certain three-squares that are also two-squares. W. J. Rusk....	
Note on the concepts of correlation and of stochastic connection. H. L. Reitz.....	
Some relativistic reflections. E. S. Allen.....	
Address by the retiring chairman. I. S. Condit.....	

The torsion problem and its analogue in curvilinear coordinates. Dr. Hall.....	
Note on problem solving in elementary mathematics. C. W. Wester..	
Note on ciphering matches. C. W. Wester.....	
Fundamental relations for $\sin z$ and $\cos z$ defined by infinite products.	
E. R. Smith.....	
Certain objectives in the teaching of calculus. W. H. Wilson.....	

Physics

The M series absorption spectra of osmium, iridium and platinum.	
R. A. Rogers.....	235
Further evidence of the effect of valence and chemical combination on the K limit of sulphur. R. A. Rogers.....	236
A new type of photoelectric colorimeter. D. H. Palmer and Jay W. Woodrow	237
Effects of irradiated oils on photographic films. Jay W. Woodrow and A. C. Bailey.....	238
The dielectric properties of some crystals at radio frequencies. A. A. Aardal	238
The thermoelectric effect in single crystal zinc and wires. E. G. Linder	239
Note on the reversal of the sodium lines. L. B. Spinney.....	239
The moulding action of surface tension on a free sheet of water. L. B. Spinney	240
A new type of electromagnetic wave-meter. Winfield Salisbury.....	240
A modification of Lee's method for the determination of heat conductivity of a poor heat conductor. P. C. Overstreet.....	241
The phosphorescence of fused quartz. A. C. Bailey.....	242
The toxic effect of ultra-violet radiations upon yeast and yeast growing media. A. C. Bailey.....	243
A vacuum tube tester for routine work using alternating current. P. S. Helmick	244
Do students' grades in physics correlate with grades in other subjects? Alice Neff	246
Optical constants of bismuth crystals in the ultra-violet. Florence E. Dix	248
Magnetic properties of thin films of iron, electrolytically deposited. E. P. T. Tyndall.....	248
Potentials of spark lines of mercury vapor. John A. Eldridge.....	249
The absorption of moisture by hard rubber. G. E. Thompson.....	249
A simple derivation of the equation for mean free path. G. E. Davis..	250
A new analysis of the action of Amsler's polar planimeter. G. E. Davis	250
A comparison of power output of conical, hyperbolic and exponential trumpets. G. W. Stewart.....	251
The theory of the two-way Quincke tube. G. W. Stewart.....	251
Direct absolute measurement of acoustic impedance. G. W. Stewart..	252
Variation of the intensity of the spectral lines of mercury with the velocity of the exciting electrons. W. D. Crozier.....	252
Electricity and mechanics. J. A. Eldridge.....	253

Fourier analysis of the flow of electricity in flat plates. C. L. Albright	254
Efficiency of diffusing bowls as a function of the lamp wattage. E. C. McCracken	256
The scattering of x-rays by camphor. R. M. Morrow	
Tornado as it passed Glenwood, Iowa. Paul Row	
A study in the administration examinations in physics. C. J. Lapp	

Psychology

The status of the psychogalvanic reflex in psychology. Nancy Bayley	257
The psychological appeal of home-made playthings. Lovisa C. Wagoner	263
The Iowa State College reasoning test. Thomas F. Vance	269
The prediction of success of elementary teachers. J. E. Bathurst	275
Psychology of drill organization in arithmetic text books. O. S. Lutes	
A preliminary study of the nature of finality in melody. Ruth M. Updegraff	279
The influence of the rhetorical question on learning. E. O. Finkenbinder and John E. Schalk	283
A schematic classification of general psychology. C. A. Ruckmick	283
The relation of mathematical aptitude to other aptitudes. R. D. Sinclair	284
Cerebral dominance in speech. L. E. Travis	285
Predicting scholastic success on the basis of informational data. F. K. Shuttleworth	286
The diagnosis of character types by visual and auditory thresholds. R. C. Travis	287
A device for measuring the degree of aesthetic sensitivity. Norman C. Meier	288
The changing relation of ethics to psychology. W. E. Slaght	
The psychology of motivation. C. C. Ross	
A study of the interests of engineering students. O. H. Ohmann	
Predicting college success from scores on intelligence tests. M. J. Nelson	
A comparison of five types of objective tests in beginning psychology. John W. Charles	
The project method in teaching psychology. Norma V. Scheidemann	

Zoology

Report on the food habits of <i>Citellus tridecemlineatus</i> (Mitchell). F. L. Fitzpatrick	291
Trapping and banding birds at Iowa City during 1926. Dayton Stoner	295
Compilation and revision of fish records published for Iowa. George E. Potter and David T. Jones	
Temperature studies of Lake Okoboji for 1925. Frank A. Stromsten	299
Evolution of Iowa State Fish and Game Department. George Bennett	
A case of abnormal development in <i>Gallus domesticus</i> , with notes on similar cases in other species. F. L. Fitzpatrick	303
Winter bird records, 1922 to 1926, in northwestern Iowa. Chas. J. Spiker	307

Notes on oxygen consumption of certain turtles. Francis M. Baldwin	315
Origin of species <i>eucrangonyx mucronatus</i> . L. S. Ross.....	325
Notes on internal morphology of <i>eucrangonyx mucronatus</i> . L. S. Ross	329
A preliminary survey of May beetles (<i>Phyllophaga</i> spp.) in Iowa.	
H. E. Jaques	337
Vascular structure of the kidney in the snapping and painted turtles.	
Willis DeRyke	339
A new host for the Aspidogastrid trematode, <i>Cotylogaster occidentalis</i> .	
Harry M. Kelly	340
Differential characteristics of <i>Lamesilis luteola</i> from three adjacent	
lakes. Harry M. Kelly	340
A modern cataclysm. Harry M. Kelly.....	340
Economy of animal material by utilizing the decerebrate pigeon for	
gastric and hunger paristalsis. T. L. Patterson.....	
The spread of the western meadowlark in Iowa. W. F. Kubicheck..	
Growth in "dead" chick embryos. T. C. Byerly.....	
Interrupted hibernation in the garter snake. Harry M. Kelly.....	340
